Introduction

Here is an entertaining irregular verbs game to help students memorize past simple irregular verbs.

Procedure

Divide the class into pairs.

Give each pair a set of base form irregular verb and past simple irregular verb cards, making sure the two sets are kept separate.

Tell the students to shuffle each set and spread them out face down on the table.

The students should also have a pen and paper for keeping score.

The students take it in turns to turn one card over from each set.

The aim of the game is to find matching pairs of infinitive and past simple irregular verbs.

If a student turns over two cards that match, e.g. awake and awoke, the student keeps the cards and scores a point.

The student can then score an extra point by using the past simple irregular verb in a sentence.

If the two cards don't match, the student turns the cards back over, keeping them in their original place.

Then, it's the next student's turn to pick up two cards and so on.

This continues until all the cards have been matched.

The student with the highest score at the end of the game is the winner.
